Office Action Summary

Art Unit: 1761

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are under 35 U.S.C. 103(a) as being unpatentable over Ohba ('252) in view of Poppel et al ('504) and applicant's admission of the prior art or vice versa, that is, Poppel et al and applicants admission of the prior art in view of Ohba, further in view of Waldburger ('254), McGonigle ('174), Cease ('537), Bliley ('086), Stover ('245), Rogers et al ('094) and Docker (EP 361893), further in view of Quaker Oats (BG. '351), QP Corp (Jp '677), QP Corp (Jp '174), Errass (EP '046) and Henkel (GB. '234) for the reasons detailed in the Office actions mailed 8/29/00, 4/3/01, 12/12/01 and 7/31/2002.

All of applicants' remarks relative to the pending claims and the references filed 11/4/2002, paper no. 18 have been fully and carefully considered but are not found to be convincing for the reasons of record set forth in the Office actions, paper no. 5, 8, 11 and 17, which still stand and are responsive to the current remarks as well. Applicants either argue each reference separately or, when the combination of references is addressed, the previous remarks by the Office are still valid. As an additional point, it is noted that the pending claims do not ~~apply to~~ exclude some barrier, edible or inedible between the base layer and upper layer, so that the two layers are not necessarily in direct physical contact with each other. It is noted, however, that it is not clear whether the specification would necessarily support such a recitation.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication from the examiner should be directed to Steven Weinstein whose telephone number is 703-308-0650. The examiner can generally be reached on Monday-Friday 7:00am to 3:30 pm.
